

Annual Report 2021-2022

FROM THE BOARD PRESIDENT

YAIR ALAN GRIVER

Hello to the entire TASA community!

Welcome to our second annual report. What a year it's been! We continue to see growth in the number of students, we're well on our way in the construction of our new school building, and our students continue to outpace the national averages in secular studies.

On an internal front, we have changed our fiscal year to match the school year (so that we can easily generate end of year reports like this one), we continue to remain fiscally prudent with no debt, and with the help of the Federation have worked on our strategic plan and are transitioning to improving various areas in the school.

We continue to work to position our school for growth and a solid financial future, while enhancing both our secular and Jewish education. But the key, for me, is that I walk the halls and see happy kids and caring staff.

Thank you for your trust and we look forward to the future.

Yair Griver - TASA Board President

ADMINISTRATIVE REPORT

Shalom U'Vracha.

As we conclude another year of academics here at TASA, it is with great pleasure that we present to you the Administration's Report on the state of our school. We have been making extraordinary progress at TASA over the last few years. As we move into our "teenage" years, and begin our 10th year, there is much to be grateful for.

We are very grateful to Hashem for all His blessings, as we look back at the many accomplishments and successes that we've had this 2021-2022 school year. Notwithstanding the continued Covid-19 pandemic challenges we faced, economic recession, and continued gaps in many student's education, we are extremely proud of the advancements and accomplishments we have been able to implement. In a difficult year, where many non-profit organizations and schools have struggled, we have had an excellent year, and are poised for an outstanding 10th year of operations with Hashem's help.

Thank you for your continued support. Have a blessed and safe summer. Sincerely,

Rabbi Yossi Marrus

Dean of Students

Director of Judaic Studies

you ye

Jessica L. Diric, M.Ed.

Director of General Studies

General

This was an amazing and successful year. We grew our enrollment to 47 students, representing a 35% growth. The staff and parent body, as well as the board of directors were happy with the administrative team and the job done. The morale of our school is high and we are closing out the year with good feelings all around. In the middle of the school year, we lost 4 students (1 family), finishing the year with 43 students in school.

The Class units for this school year were (1) Kindergarten (2) 1-2 Grades (3) 3-4 Grades (4) Middle School 5-6-7 Grades.

We are excited about the structure of classes for the 2022-2023 school year, with the following structure; (1) Kindergarten (2) 1-2 Grades (3) 3 Grade (4) 4-5 Grades (5) MS 6-7-8 Grades.

Strategic Growth

With the help of the Jewish Federation's strategic plan grant, we hired Debbie Roos as a consultant, and began working with her on our strategic development and plan in the summer of 2021. During the course of the school year, the administration together with the board president and Nammie Ichilov, Federation CEO, met numerous times and worked together on this project.

This project now continues on the board level with a committee.

The administration has been involved in the development and planning of the new school building, which should address our school needs up to 120 students. We are looking forward to a January 2023 move in G-d willing.

The transition from our current space to a new building was a major theme of the summer break. All classrooms and the administration room at Rodfei were completely packed up and moved to Chabad for the interim while our building is built.

Our special thanks to Rodfei for hosting us (both in the past and in the future) and to Chabad for providing our temporary quarters.

Covid-19 Pandemic

While we had hoped not to have to deal with Covid-19 protocols this year, unfortunately, we still had to contend with pandemic, students and staff illness, and peaks of covid within the school community. The protocols established by the board and administration were implemented and closely followed throughout the school year. As the situation changed, we updated these plans, and communicated with medical professionals, board members, staff and parents as needed. We required masks at the beginning of the year due to increased covid levels, but were able to reassess after the Chagim. Additionally, we closed school for an entire week in the beginning of January 2022, as a precaution, to keep our school community safe after the winter break.

We were able to provide quality, in-person, education for 36 out of our 37 week school year. Additionally, when students were not in attendance, due to being sick, being in quarantine, or out of extreme caution, we provided support and make-up learning for them.

New School Building

As you all know, due to growth, we have designed a new school building to be housed on Rodfei's grounds. We have raised over 80% of the funding required for the building, the contract has been signed and the initial payment has been sent to the builder. We have been hard at work with our engineers and have our building permit. We expect work on the land to begin after Yom Kippur with building delivery in early December.

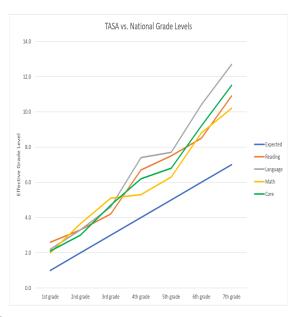

The new, almost 10,000 square foot building, will provide us with 6 classrooms, a multi-purpose room (which can be used as two more classrooms in the future), and art room, resource room, offices for our administrators, a teacher's break/work room and a conference room. We look forward to moving in later this school year and having a grand opening event in early 2023 to thank our key donors, David and Arlene Starr, as well as the institutions that have provided invaluable help including Rodfei Sholom, the Federation and Chabad.

Educational

This was a year of phenomenal, educational growth at TASA. We, in partnership with our parents, successfully modified our General Studies Department, improved our Hebrew and Judaic Studies Department further, and continued to work individually with our students to close any gaps that appeared due to the months of remote learning that were forced on us all due to Covid-19. It cannot be understated the massive impact the pandemic has had on students of all ages, especially elementary school students. The nationwide impact will not be known for years to come.

As we started the school year, initial testing and assessments showed continued major educational gaps that far exceeded the normal "summer slide". We implemented a plan with the teachers to identify, address, and close these gaps. Through continued individual assessments and focus on a child's particular areas of weakness, testing and assessments showed that we properly and effectively closed many of these gaps. In particular, standardized testing showed that our students, on average, are above the national average with first graders working on a second grade level, and the gap growing to the point that our seventh grade is working at a college freshman level.

The hiring of two new general studies staff people was a wonderful addition to our educational team. In the Judaic studies program, in addition to hiring a new teacher, we improved and resolved any lows from the previous year, leading to the best year to date. We also hired a new P.E. teacher who did a good job in the Physical Education depart-

ment. Our Hebrew teachers also did a phenomenal job in continuing to build the Hebrew program and build on previous year's successes.

The retention of our staff is at 84% with two team members leaving, one for personal reasons and the other for a full-time job.

In the Judaic Studies Department, the change in grades K-4, to only have one Judaics teacher per grade level (not multiple teachers teaching different subjects) was highly effective. This change empowered the teachers, resulted in less turnover for the students, and gave both the students and staff a clear area of focus and responsibility.

For the next school year, we will hire 1 Judaic Studies teacher, 1 P.E. teacher, and a part-time general studies teacher to float between classrooms.

Interpersonal and Communal

At TASA, we continue to emphasize the partnership we have with our parents, board and the community. The Covid pandemic certainly added challenges since we were unable to personally meet with our "shareholders" and invite them to see the school in session for many months in the year. This year, we brought back all in-person activities, field trips, inter-class projects etc. and they were very well received. In particular, we re-implemented our annual trip to the rodeo, and our students volunteered with the San Antonio Food Bank. Still, outside of the immediate TASA family, we were not successful in bringing in more visitors.

While it has been four years since our hard "reset" and crisis in our school, it seems that many of our parents have forgonen how vital their involvement and contributions (time and money) are to the school. Thank G-d, we are not in crisis, but we feel that it is important for the parents to understand how important their involvement in PTO, Fundraising, etc. really is. We would like to hold a mandatory parent's meeting prior to school's opening.

As usual in a school, there are occasional inter-student skirmishes during the year. In particular, we dealt with a series of interpersonal issues in the 3-4 Grades. As a result, we implemented the 12 Tools and Zones of Regulation Program to help them identify their feelings and work towards self reflection and conflict resolution. We intend to implement this program school-wide for the 2022-23 school year.

We also had some families that needed intervention due to their child/ren needing emotional/educational/social/medical support and help. We met with and communicated regularly throughout the year, and got those students to begin working with professionals in their specific area of need. While this is an ongoing process, we feel that all the students had a good year, and we hope to see continued growth in these areas. The Jewish Federation's Mental Health Grant, in conjunction with Jewish Family Services, was used as a resource for these families.

We have regularly met with and updated both Rabbi Scheinberg of Cong. Rodfei Sholom and Rabbi Block of the Chabad Center and kept them engaged in all aspects of the school. We have also maintained and grown our relationship with Nammie Ichilov, CEO of the Federation, who has been very helpful in many ways.

Financial

The business end of our school continues to operate in a professional and efficient manner. Vanessa Kock left our school at the end of January 2022 for personal reasons, and was replaced by Maria Karp who has done an excellent job to date. With the help from Veronica Goldblum, Board Treasurer and Sol Schwartz's accounting firm, our books are clean and accessible.

All banking is with IBC Bank and everything is now synced with Quickbooks and our accounting firm. We filed an extension for our 2021 Taxes and are working on resolving some minor discrepancies and file them soon.

We opened a new Building Fund account with Simmons Bank.

By streamlining the tuition and financial process, with easy forms online, Flex Tuition Charts, and clear guidelines and expectations, we were able to bring in more tuition with less hassle. Most families are paid up or on a solid payment plan. One family is significantly behind and a fundraising effort will be made by Yair Griver and Rabbi Block to address it.

Our annual expenses closed at \$521,940, under the approved budget projection of \$566,387 and we head into the 22-23 school year with a small surplus.

Overall, we remain in the black, and on solid financial footing as we close out our 9th year of operations.

2022-2023 Federation allocation applications were successful and we have received the largest allocation in recent years, \$30,000 towards tuition assistance and \$25,000 towards transition costs of moving into our new building. We also received \$3,500 towards our Scholarship Account.

We received \$2,498 in grants from the Jewish War Veterans towards the scholarships of Military families.

We also received a \$5,000 grant from Bnei Brith Organization.

Please note that the Financial Statements are on a cash basis and include money raised for our new building.

Fundraising

Our two main fundraisers for the year, were successful and notwithstanding the covid-19 and economic challenges, did well. Casino Night came close, but did not hit the goal that we had hoped.

Matchathon grossed \$120,930.00 and Casino Night grossed approximately \$93,590.00.

For next year, we will be making some changes in our fundraising pla2orms as the percentages being taken are too high.

Recruitment and Retention

For the 2022-2023 school year we will be gaining 10-12 students and have the potential for a few additional new students as well.

We will also be losing 5 students (1 going to Yeshiva, 2 moving to NJ, 2 moving to France) that we know of.

We ended the 2021-2022 school year with 43 students, and we are projecting 52-55 students for the upcoming school year.

We also celebrated the achievements of a number of our alumni recently:

- * Shanna Miller, Class of 2018 will attend University of Maryland.
- * Moses Pearsall, Class of 2017 will attend UTSA

- * Yael Darter, Class of 2018 is currently attending SACC, and will attend Seminary in Israel
- * Mendy Hutcheson, Class of 2018 will attend College of Southern Nevada.

Marketing and Communication

During the course of the year, we implemented a number of marketing campaigns.

The bi-weekly TASA Times Newsletter was sent in print and via email to all parents, staff and board members. This allowed us to regularly discuss what was happening with our students and provide pictures of the activities.

The quarterly TASA Report, an E-Newsletter, was sent via Mailchimp to our larger donor list (700+ contacts).

Our Facebook and Instagram accounts were regularly updated and used to help promote the school and activities.

The school website continues to get good reviews and ease of use. We ran the Casino Night completely through our website.

In October 2021 we designed and sent a printed newsletter "The Jewish Future" to all our supporters.

The Casino Night Ad Journal was distributed at Casino Night and was mailed to our larger sponsors and donors who did not receive one at the event.

A beautiful new video was produced for Casino Night and will be posted on our website as well as being shared on social media.

We created an ad to run in the Rosh Hashanah edition of the Federation magazine discussing our students' educational achievements and our new building.

Areas of Future Growth

There are a number of areas that we'd like to improve in the next year. Some of them are restarting projects that were put on hold due to Covid, and some are meant to continue our growth.

- **New Building and Rebranding:** Top of our list is the transition to our new school which will require a great deal of work and planning on our Transition Plan and New Building move-in.
- **Showcasing The School:** Showcasing our school is a primary focus for next year. We need to do a better job in telling our story to our parents, supporters and the community at large. While covid-19 made visitation and programming virtually non-existent, we are planning many exciting things for next year.
- **Training and Empowering Teachers:** As we will have 2 new staff members for the 2022-23 school year, we are working on a mentorship program to help them maximize their potential.
- Programming and Activities: Increase our programming and activities that involve the entire student body and
 parents. This year we once again had our Thanksgiving Family Brunch, PTO Dinners, holiday programming and
 school wide activities.
- **School Partnerships:** We are hoping to build new partnerships with other Jewish Day Schools in Texas as well as other Middle Schools in San Antonio.
- **Board Involvement:** We will be working with our board of directors to increase their engagement and activity with the school and plan to have them attend school activities on a rotating basis.
- **Strategic Planning:** We will continue working closely with our board president and strategic planning committee as well as key community members on implementing our strategic plan. We are eagerly looking forward to continued growth and expansion of our school.

Thank You

We welcome every member of the community to visit our school to see the TASA magic in action.
